IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic precautions should always be observed, including the following. Read all instructions before using this appliance.

DANGER

To reduce the risk of electric shock:

- Do not reach for an appliance that has fallen into water. Unplug it immediately.
- Do not use while bathing or in the shower.
- Do not place or drop into water or other liquid.
- Do not place or store this appliance where it can fall or be pulled into a tub or sink.
- Except when charging, always unplug this appliance from the electrical outlet immediately after using.
- Unplug this appliance before cleaning it.

WARNING

To reduce the risk of burns, fire, electric shock or injury to persons:

- This appliance is for household use only.
- An appliance should never be left unattended when it's plugged in, except when charging a rechargeable appliance.
- Close supervision is necessary when this appliance is used by, on, or near children or persons with special needs.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by Spectrum Brands, Inc.
- Keep the cord away from heated surfaces.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or if it has been dropped into water. If any of these things happen, return the appliance to a Remington authorized service center for examination and repair.
- Never drop or insert any object into any of the appliance's openings.

- Do not use outdoors or operate where aerosol (spray) products are being used, or where oxygen is being administered.
- Always store this appliance and cord in a moisture-free area. Do not store it in temperatures exceeding 140°F (60°C).
- Do not plug or unplug this appliance when your hands are wet.
- Do not use an extension cord or a voltage converter with this appliance.
- Always attach the plug to the appliance, then to the outlet. To disconnect, turn all controls to OFF, then remove plug from outlet. Detach removable power cords from appliances for storage.
- Do not place this appliance on any surface while operating.

- This power unit is intended to be correctly oriented in a vertical or floor mount position.
- This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.
- Do not use this appliance with a damaged or broken cutting unit, as injury may occur. Always make certain blades are aligned properly.
- This clipper is designed for use with 120 Volts AC, 60 HZ electrical outlets. Do not connect the clipper to a higher voltage than indicated, as it may result in personal injury and/or damage to the clipper.

How to Use

Line Cord Safety Tips

NOTE: This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

1. To insert plug, grasp it firmly and guide it into outlet.
2. To disconnect the appliance, grasp the plug and remove it from outlet. Do not pull or yank on the cord or appliance. **Do not wrap the cord around the appliance.**

Blade Care

The life of your clippers will depend on frequency of use, care, hair type and condition. The HC60, HC80, and HC81 have blades which do not require additional oiling.

Remington Guarantees Satisfaction After 30 Days!

Remington 60-Day Money Back Guarantee*

If within 60 days after purchasing any Remington® product, you are not completely satisfied and would like a refund, return it with the original dated sales receipt directly to Remington and receive a full refund.** For questions concerning the money-back guarantee, please call 800-736-4648 in the U.S. and Canada.

*Applies to U.S. and Canadian customers' returns only.

**Terms and conditions apply.

Terms and Conditions

1. Refund will be in the form of a check issued in U.S. Dollars and will be provided only if all Terms and Conditions are met.

2. The following items must be returned to Remington and postmarked no later than 60 days after purchase of the Remington® branded product:

- a. The Remington® product;
- b. The original sales receipt indicating price and date purchased; and
- c. The completed 60-day money back guarantee form located at RemingtonProducts.com/60day.

3. In addition, Remington, in its discretion, must determine that the returned product was used in accordance with the instruction booklet (included with the product at the time of purchase).

4. Returns should be mailed prepaid (no collect returns accepted) to:
Remington 60-Day MBG
507 Stokely Drive, Box 1
DeForest, WI 53532

5. Refund does not include postage costs for the return of the product, but will include applicable taxes paid by customer, if any.

6. No responsibility will be accepted for late, lost, stolen, misdirected or damaged product.

7. Please allow 4-6 weeks to receive your refund by check.

Questions or comments: Call 800-736-4648 in the U.S. and Canada or visit RemingtonProducts.com.

Warranty

Limited Five-Year Warranty

Spectrum Brands, Inc. warrants this product against any defects that are due to faulty material or workmanship for a two-year period from the original date of consumer purchase. This warranty does not include damage to the product resulting from accident or misuse.

If the product should become defective within the warranty period, we will replace it free of charge. Return your product and sales receipt with your name, address and day time phone number to: Remington Returns Center, 507 Stokely Dr., P.O. Box 1, DeForest, WI 53532. For more information call 800-736-4648 in the U.S. and Canada or visit RemingtonProducts.com.

KEEP ORIGINAL SALES RECEIPT AS PROOF OF PURCHASE FOR WARRANTY PURPOSES.

This warranty does not cover products damaged by the following:

- Accident, misuse, abuse or alteration of the product
- Servicing by unauthorized persons
- Use with unauthorized accessories
- Connecting it to incorrect current and voltage
- Wrapping cord around appliance causing premature wear and breakage
- Any other conditions beyond our control

No responsibility, obligations, or liability are assumed for the installation or maintenance of this product.

SPECTRUM BRANDS, INC. SHALL NOT BE RESPONSIBLE FOR ANY INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT. ALL IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF FITNESS AND MERCHANTABILITY, ARE LIMITED IN DURATION TO TWO YEARS FROM DATE OF ORIGINAL PURCHASE.

This warranty gives you specific legal rights and you may also have other rights which vary from state to state or province to province. Some states do not allow the exclusion or limitation of incidental, special or consequential damages.

Spectrum Brands, Inc. Money-back Offer

If within 30 days after you have purchased your Remington® branded product, you are not satisfied and would like a refund, return it with the sales slip indicating purchase price and date of purchase to the retailer from whom it was purchased. Spectrum Brands, Inc. will reimburse all retailers who accept the product within 30 days from the date of purchase. If you have any questions concerning the money-back guarantee, please call 800-736-4648 in the U.S. and Canada or visit RemingtonProducts.com.

Using the Detail Trimmer

Thinning and Tapering

- Turn the groomer on.
- Use a small comb to hold the beard hairs in place while trimming.
- Holding the groomer with the cutting unit facing away from you, move the groomer along the length of the comb.

Beard line

- Turn the groomer on.
- Hold the groomer with the trimmer cutting blades facing you.
- Lightly touch the cutting blades to your face and draw the groomer toward your beard line. For your neck, draw the groomer away from desired beard line.

Maintenance

- Do not wrap the cord around the appliance.
- This appliance does not contain any user-serviceable parts. Bring this appliance to an authorized service representative for service.

Trimming Beards and Mustaches

1. Comb your beard in the direction it grows.

2. Determine the length you want the beard to remain, and fit the appropriate trimming guide. Remember the 1/8" (3mm) guide will give you the shortest beard while the 1/2" (12mm) or 1" (25mm) will give you the longest. If you want a longer beard you can use the comb as a trimming guide.

3. Start trimming under your chin and work toward your ear and beard line. Cut in different directions for a uniform trim.

4. Lightly stroke the edge of your mustache in a downward movement.

6. The adjustable taper control lever allows you to gradually change the closeness of your cut, either with or without a trimming guide.

When the lever is fully forward the blades will give you the closest cut. Moving the lever gradually backward increases the cut length.

Very short styles

1. Using the 1/2" (12mm) trimming guide, hold the comb flat against the head and move the hair clipper from the back of the neck to the crown of the head.

2. Cut in a similar manner from the side to the top of the head. Then cut from the front to the crown of the head.

3. If a "Flat Top" style is desired, remove the trimming guide and use the barber's comb. Trim a little at a time until a flat look is achieved.

Usage Tips

Giving a Comfortable, Even Cut

Allow the clipper to cut through the hair without moving it too quickly. Moving the clipper too quickly may create a pulling sensation. Use short strokes when cutting, and initially use the longest trimming guide. You can always use a closer trimming guide later if you want a closer cut.

How to Give a Haircut

1. Start at the back of the head. Holding the clipper as shown, lightly stroke upward making sure you are taking off the desired amount of hair. Work your way up to the crown of the head in layers. When completed, comb the area to remove any loose hair and to determine whether you need any further cutting.

2. Repeat the same procedure for each side of the head. Make sure the length of the hair is trimmed to the same length on both sides of the head.

3. To cut the hair at the top of the head, hold the hair between your fingers and cut a small amount at a time. Cut from the front to the back.

4. Remove the trimming guide and replace with either the left or right ear guide (models HC80 and HC81). The shorter guide teeth are designed to be toward the ear. Move the clipper from the back of the head to the front. This creates a tapered effect around the ears and back of the neck.

5. The final trim can be made with the hair clipper or the included scissors. Make sure to check over the entire head for any uneven areas. For styled hair or giving quick trims, you may prefer using your hair clipper without the trimming guide.

To Attach Trimming Guides

1. Select the trimming guide that matches the length you want the hair to be after the cut. The trimming guides are numbered and marked with 1/8" (3mm), 1/4" (6mm), 3/8" (9mm), 1/2" (12mm), 5/8" (15mm), 3/4" (18mm), 7/8" (22mm), and 1" (25mm). See preceding chart to determine which combs your model contains.
2. While the clipper is off, hold the trimming guide with the teeth up. Slide the trimming guide onto the blades until it locks into place.

Before Cutting Hair

1. Make sure your hair clipper is running smoothly, with a slight vibration.
2. Place a cape around the neck of the person whose hair is being trimmed or cut. (A cape is provided with models HC80 and HC81).
3. This person should be seated so that the top of their head is at your eye level.
4. Comb the hair as it is normally styled.
5. Comb out all knots and tangles.
6. Ensure the hair is dry. Hair clippers perform best with dry hair, making it easier to see how much hair is being cut.
7. Hold the hair clipper in the palm of one hand with your thumb resting firmly on the top of the hair clipper. This grip provides comfortable cutting control. Although the hair clipper may be used with the left or right hand, using it right-handed allows you to access the taper lever more easily.
