Before Using

Please refer to the safety instructions and warnings at the front of this manual before use.

INSERTING BATTERIES

Your groomer requires 1 'AA' alkaline battery. We recommend that you use Rayovac® batteries for optimal performance.

1. Make sure the product is turned off.
2. Rotate the battery compartment cap approximately ¼ turn counter-clockwise and pull.
3. Insert 1 'AA' alkaline battery, so that the (+) and (-) symbols on the battery align with the corresponding mark in the battery compartment.
4. Place cap back on unit using the alignment marks and rotate clockwise until the cap snaps into place.

NOTE: Your groomer will not work if the battery is inserted incorrectly.

NOTE: Remove battery if the unit is not in use for long periods.

Usage Tips

This groomer is a wet groomer which may be used in a bath or shower.

- Hairs should be free of lotions when using your groomer.
- Never use groomer with damaged or broken cutter units.
- Your groomer is suitable for bikini area, underarms and fine, downy hair. It can be used dry or in the shower.
- Do not rinse with water hotter than 160°.
- Do not completely submerge the groomer in water.
- Before using dry, make sure that the area is clean, dry and free from creams or oils.

How to Use

Attachments

Your personal groomer has three different attachments (including length guide) to meet all your grooming needs. Just place the attachment on the handle and turn it clockwise until the lock symbols align.

BIKINI TRIMMER PLUS LENGTH GUIDE ATTACHMENT

You can use the bikini trimmer on the outside of your bikini line or add the 3-position guide attachment for trimming inside your bikini line.

1. To attach the guide, simply slide it onto the trimmer as shown. (Diagram A)
2. To adjust the length, grip the sides of the guide, slide the guide off, adjust to align into desired slots and slide back into locked position. (Diagram B)

FOIL SHAVER

You can use this attachment for smaller areas such as your bikini line, underarms or the fine, downy hair on your face. It was not designed to shave larger areas such as your legs. Use it dry, or use it wet with soap, foaming gel, or body wash if you prefer.

Hold the groomer so the foil-shaver screen gently touches your skin. This allows the unit to work the way it was designed for the closest shave and minimum screen wear. Avoid holding the groomer at an angle. This will distort the screen and may cause some skin irritation.

NOTE: Ask your dermatologist before using on irritated skin or skin with rosacea.

Cleaning, Care and Maintenance

Clean Your Groomer Regularly

CLEANING CAUTIONS

- Do not use harsh or corrosive cleaners on the units or their cutters.
- Do not apply pressure or hard objects to cutters.
- Do not disassemble cutter assembly.
- There are no user serviceable parts.
- The handheld unit should be turned off before cleaning.

CLEANING WITH WATER

Your groomer's trimmer attachments have rust-resistant, stainless-steel cutting blades that permit the cutting assemblies to be rinsed under running water if you choose.

- Remove all attachments by rotating them counter-clockwise to the unlock position and pulling the attachment off.
- Rinse the attachments under warm running water. Do NOT use hot water, which may cause damage to components.
- Rinsing the groomer under water or using when in the shower may require lubricating the cutter blades periodically. Using only light-grade oils (e.g. sewing machine oil), simply spread 1-2 drops lightly over cutters with fingertip. Wipe away all excess.

CLEANING THE FOIL SHAVER

- Press the buttons at the ends of the screen head.
- Remove the head and shake out the clippings or rinse.
- Blow off the cutter assembly or rinse.
- Replace the head, making sure the unit snaps in place.
