IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING.

KEEP AWAY FROM WATER.

DANGER

As with most electrical appliances, electrical parts are electrically live even when switch is off.

To reduce the risk of death by electric shock:

- Always unplug this appliance from the electrical outlet immediately after using.
- Do not use while bathing or in the shower.
- Do not place or store this appliance where it can fall or be pulled into a tub or sink.
- Do not place or drop into water or other liquid.
- Do not reach for an appliance that has fallen into water. Unplug it immediately.
- Unplug this appliance before cleaning it.

WARNING

To reduce the risk of burns, fire, electric shock or injury to persons:

- An appliance should never be left unattended when it is plugged in.
- Close supervision is necessary when this appliance is used by, on, or near children or people with special needs or disabilities.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by manufacturer.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or if it has been dropped into water. Return the appliance to a service center for examination and repair.
- Keep the cord away from the heated surfaces. Do not wrap the cord around the appliance.
- Never use while sleeping.
- Never drop or insert any object into any of the appliance's openings.
- Do not use outdoors or operate where aerosol (spray) products are being used, or where oxygen is being administered.
- Do not use an extension cord.
- This appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.

- Do not place the heated unit directly on any surface while it is hot or plugged in. Use the stand provided.
- Always store this appliance and cord in a moisture-free area. Do not store it in temperatures exceeding 140°F (60°C).
- This appliance is for household use only.
- Do not plug or unplug this appliance when your hands are wet.

KEEP AWAY FROM CHILDREN

SAVE THESE INSTRUCTIONS

Product Features

Thank you for purchasing the Remington® Curling Wand. Please carefully read the instructions contained in this booklet, and keep them in a safe place for future reference.

Key Features:

- (A) Ceramic Barrel
- (B) ON/OFF Button
- (C) Swivel Cord
- (D) On Indicator Light
- (E) Locking Ring

Optional Attachments

How to Use

How to Use

Hair should be clean, dry or nearly dry, and free of tangles before using. (This iron can also be used for quick touch-ups any time.)

1. Rest the iron on its stand on a smooth, flat surface, and plug it in.
2. Turn unit on by sliding power switch from off to on.

To Secure Attachment to Handle

1. Before removing or attaching an attachment, ensure that the barrel is cool to the touch.
2. Turn unit off and unplug unit from the outlet.
3. Ensure the locking ring is in the unlocked position, ready to insert the attachment.
4. Locate the pins on the on the attachment and holes on the handle. (DIAGRAM A)
5. Firmly push together. (DIAGRAM B)
6. Turn the locking ring counterclockwise to secure the handle and the attachment together, while still pressing down on the attachment. (DIAGRAM C).

NOTE: While heating, during use and cooling, place on flat, smooth heat-resistant surface. Only hold unit at the end of the handle.

Please note regular use of styling products may deteriorate the coating. Do not scratch the surface, as this will deteriorate the effectiveness of the coating.

TEST A SMALL SECTION OF HAIR BEFORE USING; THEN ADJUST TEMPERATURE DEPENDING ON HAIR TYPE.

Clippless Styling

1. Put heat protective glove on the hand you will use to wrap your hair around the wand with.
2. Section hair. For tighter curls use thinner section. For looser curls use thicker sections.
3. With your gloved hand take sectioned hair and wrap around the wand; wrapping ends last.
4. Keep hair around wand by holding the very ends with your gloved fingertips.
5. For added lift and volume, begin wrapping hair over the widest part of the barrel.

Clipped Styling

1. Start by dividing hair into sections not more than 1 inch deep and 2 inches wide.
2. Keep the section smooth by brushing or combing through it while holding the ends taut with the other hand.
3. Taking one section at a time, place the ends of hair over the barrel with the clamp open. Then close the clamp, making sure that the ends extend just a tiny bit beyond the clamp.
4. Grasp the safety tip with the other hand, and it will be easy to roll hair.
5. Keep the section of hair taut as you wind it around the hot barrel. Wind the curl toward the scalp as far as you wish to go without touching scalp with the hot barrel.
6. Hold the curl in place for up to 20 seconds for tight curls or if hair is hard to curl. Hold for less time if hair is easy to curl, or if you want loose curls or just waves.
7. When ready to release curl, unwind about half a turn (for longer hair, unwind a bit more) and push down on the clamp release lever to open the clamp. Now, gently withdraw the barrel from the center of curl. Allow curl to cool, and try not to disturb curls while proceeding in the same manner around whole head.
8. When completely finished, and all curls have cooled thoroughly, gently brush and comb hair into the style desired.

For a Flip, the clamp should be under and the barrel over the section of hair at the start of the curl.

For a Curl, the clamp should be over and the barrel under the section of hair at the start of the curl.

For Volume and Body, roll hair loosely around the barrel. Allow hair to cool slightly before brushing.

Maintenance

Cleaning

- To clean the unit, be sure the unit is cool and unplugged. Wipe the handle and barrel with a damp cloth. No other maintenance is necessary.
- Do not attempt to repair the appliance yourself.

Note: This appliance has no user serviceable parts.

Storage

Unplug the unit whenever it is not in use. Allow it to cool, then store it out of reach of children in a safe, dry location.

Never wrap the cord around the appliance, since this will cause the cord to wear prematurely and break, thus voiding warranty. Handle the cord carefully and avoid jerking, twisting, or straining it, especially at plug connections.

Warranty

Limited Two-Year Warranty

Spectrum Brands, Inc. warrants this product against any defects that are due to faulty material or workmanship for a two-year period from the original date of consumer purchase. This warranty does not include damage to the product resulting from accident or misuse.

If the product should become defective within the warranty period, we will replace it free of charge.
